

AFRICAN AI NETWORK (AAN) POLICY AND GUIDELINES HUB

Welcome to the **AAN Ecosystem Education Program Policy Hub**. At AAN, we are committed to fostering a transparent, inclusive, and technologically advanced learning environment that empowers the next generation of AI leaders in Africa.

This Policy Hub serves as your centralized resource for the key policies, procedures, and community guidelines that govern your journey with us—from initial enrollment through to ecosystem integration and professional certification.

Purpose Of This Hub

Whether you are a **Learner**, **Mentor**, **Industry Partner**, or **Stakeholder**, this resource is designed to help you understand your rights, responsibilities, and the rigorous standards we uphold across our AI training programs.

How To Navigate This Resource

The sections below (and the associated links) will guide you through specific policies related to:

- **Admission & Onboarding:** Selection criteria, technical requirements, and enrollment mandates.
- **The AI Learning Experience:** Codes of conduct, academic integrity in the age of AI, and peer-to-peer engagement.
- **Assessments & Mastery:** Project-based evaluation standards, milestone tracking, and certification eligibility.
- **Ecosystem Participation:** Guidelines for online collaboration platforms and physical innovation hubs/meetups.
- **Ethics & Privacy:** Data protection, ethical AI usage policies, and community safety.

Commitment To Excellence

We encourage all community members to review these documents carefully. Success in the AAN Ecosystem is built on mutual respect, proactive participation, and adherence to these shared standards.

Support & Clarifications

If you have any questions regarding these policies or require further clarification on how they apply to your specific cohort, please reach out to our support team at:
